VIDEO CHECK-OUT FORM

TO: AMIC/MWCF
ATTN: Rachel Wagner
535 Adams Avenue
Montgomery, Alabama 36104
Phone: (334) 262-2566
Fax: (334) 263-0200

PLEASE PRINT CLEARLY OR TYPE
PLEASE RETURN VIDEOS PROMPTLY

FROM:

Contact Person: _____ Title: _____

City/Agency: _____

Address: _____

City: _____ State: _____ Zip: _____ Telephone: (____) _____

E-mail Address: _____

Please send me the following video(s) for showing to our employees. I understand that the loan period is for two weeks and that I am responsible for the safe return of the films to the address noted above. Failure to return videos within 14 days of receipt will result in a \$75.00 replacement fee being assessed. Some videos have a waiting list and are sent on a first-come first-served basis. Please be patient.

PLEASE USE THIS FORM TO ORDER VIDEOS (FAX OR MAIL). NO PHONE ORDERS PLEASE.
Please include this form when returning videos (for identification),

Name of Video(s): _____ Video# _____

_____ Video# _____

_____ Video # _____

I. **Reservations, Rules & Restrictions**

A. **Checking Out Videos**

1. All videos are made available to members of MWCF and AMIC free of charge.
2. Checking out a video entitles you to view and show it to your employees for a total period of two weeks. **Please return videos promptly within 14 days of receipt. A replacement fee of \$350.00 will be assessed for any video not returned.**
3. To obtain a video, fill out the enclosed order form. Videos are loaned on a first-come, first-served basis.
4. A maximum of 3 videos may be checked out by the same entity within the same time period.

B. **Rules For Care of Videos**

1. Only responsible and experienced operators should be allowed to operate the VCR / DVD Player.
2. Keep your VCR / DVD Player clean.
3. Stay with the VCR / DVD Player during operation.
4. In the event of video damages, do not repair. Return the video and enclose a note saying "DAMAGED".
5. Please rewind all videos after use.

C. **Important Restrictions**

1. These Videos are loaned only for educational purposes.
2. Do not allow employees to take the videos home to view.
3. Video or tape copies may not be made of any of our videos.

II. Video and Safety Meeting Recommendations

Learning increases dramatically through effective use of videos and other audiovisuals. Tests have shown that trainees can learn as much as 55% faster, and remember up to 70% more information thru the use of videos as compared with oral instructions alone. The following are pointers on the effective use of videos.

A. **Selection**

Select a video that most closely fits your employees' needs. Always preview a video before you schedule a showing, as a preview is the only way to know that it is right for your purpose. Make notes on any points in the video that you'll want to discuss after the showing.

Consider using discussion, practice demonstrations, or tests, for reinforcing or expanding upon the video message. Ask a local expert, or a knowledgeable employee, to demonstrate what was shown in the video. Avoid a set routine such as "monthly safety movies". Use videos to break the monotony of safety meetings, not to create monotony.

B. **Introducing a Video**

Tests have proven that an effective introduction of a video and a review of it after a showing can double the video's educational value. Prepare your audience by informing them about the video's major purpose and about any points requiring clarification or emphasis. Arouse interest by explaining how the audience will benefit from the message. Make them want to see the video. Point out how the message applies to their jobs or their lives. Ask a few questions to get your viewers to think about the subject. Create a "climate of interest" before the showing.

C. **Showing**

Immediately after you start the video, double check to make certain that the volume and focus are correct. Remain with the group throughout the entire showing as this helps to maintain full interest.

D. **Follow-Up**

Discussion usually reveals what has been overlooked or misunderstood. Clear up all misunderstandings and fill in on what has been overlooked. Discussion may reveal a need for additional education on the subject. Any type of follow-up activity that reinforces or expands upon the video's message or that promotes actual doing after learning is highly valuable.

E. **Make Videos Pay Their Way**

Costly work time is invested in video showings. That's why it is important to prepare carefully for the use of videos and plan follow-up efforts so that you can receive all the education benefits they have to offer. Videos have more ability to arouse and maintain interest, to inspire, to communicate ideas and to tell

"how" and "why" than do any other kind of educational media. With advance planning, proper use, and vigorous follow-up, you will get full value from videos....and from any other audiovisuals that you employ.

The following model safety meeting outline may be used to help videos pay their way.

Model Safety Meeting Outline

1. Select appropriate topic. It's best to concentrate on one problem area than to use the shotgun approach and briefly mention numerous topics.
2. Review past accident injury experience. Let employees know why this topic is being covered.
3. Ask how each accident could have been prevented. Try to get employees to participate in the meeting.
4. Inform employees of proper procedures to be followed. Be thorough and encourage questions. (The employee safety coordinator will provide information when possible.)
5. Provide an actual demonstration. Let a foreman or qualified employee go through the procedure.
6. Show a supporting video, slide show, etc., if available. Videos are a great teaching aid when used properly. Employees retain information much easier when the message is combined with a visual image.
7. Close with comments on the importance of following procedures. You should also stress benefits to the employee, the employee's family and the municipality.
8. Ask for any questions or comments from employees.
9. Post proper procedure, poster, etc., on a bulletin board for employees to review at their convenience.

Video Index By Description

Animal Control Department

1.001 Animal Handling & Safety

Learn how to safely and humanely handle and restrain dogs and cats. This tape provides tricks of the trade that will improve animal handling skills and provide a safer working environment. Proper lifting, working with hazardous chemicals and equipment, fire safety, and protective measures are discussed.

Run Time: 45 Minutes

1.002 Animal Identification

Chances of returning animals to owners are greatly enhanced if staff members know how to identify and describe animals. Popular breeds of dogs and cats are presented. Other topics include methods of describing mixed breeds and awareness of microchips, tattoos and tags.

Run Time: 50 Minutes

1.003 Dog & Cat Basics

The public expects animal shelter staff members to know basic information about dogs and cats and often call upon them to answer questions about their pets. The information on this tape gives the knowledge required to educate the public and provide guidance for persons adopting animals from the shelter. Staff members learn about gestation periods, birthing, orphaned animals, weaning, housebreaking, litter box training, crating, teething, leash training, grooming, and spay and neuter surgery.

Run Time: 50 Minutes

1.004 Fleas, Ticks & Other Parasites

This tape will educate staff on external and internal parasites common to domestic pets. Methods of control that can be implemented at the shelter and in the owner's home, and means of prevention are presented.

Run Time: 46 Minutes

Animal Control Department (continued)

1.005 People Care / Kennel Care

This tape will provide information on dealing with the public, co-workers and animals in ways that promote health and good will. Prevent those giant steps backward that occur when lack of training leads to inadequate care of people or animals. Information includes tips on dealing with customers and co-workers as well as a proper cleaning, feeding and disease control.

Run Time: 33 Minutes

1.006 Vaccination & Preventative Health

The immune system, how it works with vaccinations and the diseases they prevent are all presented on this training tape. Learn what vaccinations are needed and when they are needed to protect dogs and cats.

Run Time: 45 Minutes

1.007 Safety Around Dogs

The American Kennel Club believes it's essential that everyone know how to behave safely around dogs by treating them with care, consideration and respect and steering clear of potentially dangerous situations. This video is geared toward children, but could be very helpful for adults too.

Run Time: 14 Minutes

Building Construction

2.001 Construction Scaffold Safety

Constructing safe scaffolds and safety procedures while on a scaffold are presented in this video. What to look for while inspecting scaffolds is also described.

Run Time: 10 Minutes

2.002 Fall Protection

What is required and beyond. Falls from six feet or greater.

Run Time: 11 Minutes

2.003 Nail and Staple Guns

This video teaches how not to use pneumatic nails and staple guns.

Run Time: 5 Minutes

2.004 Scaffolds Part 1: General Requirements

Fatalities and serious injuries associated with scaffolds are common. Help reduce accidents by making sure supported scaffolds meet requirements for design and construction.

Run Time: 5 Minutes

2.005 Slips and Falls: Construction

Falls are the most common cause of on the job injuries, second only to back strains.

Run Time: 5 Minutes

2.006 Stationary Scaffolds

Falls from heights kill workers. Scaffold assembly, competent person hazards and safe work practices are all covered in this video.

Run Time: 11 Minutes

2.007 Suspension Scaffolds in Construction

Learn how to work safely on suspension scaffolds and more about scaffold assembly.

Run Time: 10 Minutes

2.008 Jobsite Safety Inspection

VHS or DVD

When you follow safety standards everybody wins: employees are safe, work is completed efficiently and costs are under control. Working safely benefits everyone. This video teaches how to complete a thorough jobsite inspection.

Run Time: 18 Minutes

Building Construction (continued)

2.009 Personal Protective Equipment

DVD ONLY

Because of the nature of construction work, hazards exist in practically every work place. Some PPE discussed in this video are: Eye Protection, Hearing Protection, Head Protection, Respirators, Hand Protection, High Visibility Work Wear, Foot Protection and Fall Protection

Run Time: 24 Minutes

2.010 Housekeeping on the Jobsite: A Plan for Success

DVD ONLY

On any jobsite safety is everybody's responsibility. Four areas that affect the health and safety of the entire workplace that are discussed in this video are: 1)People 2)Equipment 3)Materials and 4)Environment. A safe environment starts with an effective housekeeping plan. We have to plan for a safe work environment, it doesn't just happen.

Run Time: 19 Minutes

2.011 Safety Orientation

DVD ONLY

This video encourages employees to have a positive attitude about safety as well as provides introductory safety training on some of them most common workplace safety issues. Some topics that are covered are: right attitude, slips, trips, falls, ladder safety, fall protection, back safety, electrical safety, hand and power tools, control of hazardous materials, confined spaces, scaffolds, trenching and shoring, PPE, fire safety and first aid.

Run Time: 20 Minutes

Electrical Service

3.001 Climbing Poles and Ladders

Workers illustrate safe procedures for climbing poles and towers.

Run Time: 5 Minutes

3.002 Construction Electrical Safety

This video describes techniques for using equipment safely, making the work environment safe and responding to an accident.

Run Time: 10 Minutes

3.003 Electrical Maintenance

General electrical maintenance, lock out, tag out, and gloves are all covered in this video.

Run Time: 10 Minutes

3.004 Electrical Safety/ Beware The Bite

Learn more about conductivity, levels of protection, safe work practices, lockout/tagout, personal protective equipment, and emergency response.

Run Time: 20 Minutes

3.005 Electrical Safe Work Practices: Locking and Tagging

The accidental or unexpected sudden starting or contact with electrical equipment can be dangerous. This video talks about isolating the energy source with a lock and tag.

Run Time: 5 Minutes

3.006 Lockout/Tagout

To help you understand lockout/tagout and the requirements of the OSHA standard, here are some basic definitions.

Run Time: 13 Minutes

3.007 PPE: Electrical

This video addresses the different types of PPE and situations in which different levels of appropriate PPE should be worn.

Run Time: 12 Minutes

Electrical Service (continued)

3.008 Working Safely In The Proximity Of Power

This video identifies power hazards when working on aerial or buried cable and on customer premises. Always inspect safety gear.

Run Time: 19 Minutes

3.009 Electrical Arc Flash Safety

DVD ONLY

Electrical Arc Flash is a short circuit in the air that has the potential to be a very large short circuit through the air. This can cause extremely dangerous conditions. This video explores these conditions and OSHA regulations that are in place to protect you. It will also help you identify whether or not you are at risk.

Run Time: 13 Minutes

3.010 Understanding and Working Safely With Electricity: The Basics *DVD ONLY*

We use electricity all the time and often we don't treat it with the respect it deserves. This video will help you to understand how electricity acts, how it can be approached and the hazards it presents. This video will also show you how these hazards can be controlled. This should be the beginning and not the end of your training in electrical safety. Some primary hazards of electricity include: shock, burns, arc-blasts, explosions and fires. Other topics covered in this video are: lightning safety, electrical storms, extension cords, electrical equipment and grounding, overloading circuits, electrical tools, water and electricity, power lines, heating appliances, fuses and circuit breakers.

Run Time: 16 Minutes

Fire Service / Emergency

4.001 Advancing Hoselines

How to advance and pull hose from pumper to fire is presented in this training video.

Run Time: 18 Minutes

4.002 Bloodborne Pathogens: Control Your Exposure

It is important to understand what the hazards of bloodborne pathogens are and what preventative measures you can take to protect yourself from exposure.

Run Time: 13 Minutes

4.003 Communications for Firemen

This video covers safety communication for firemen.

Run Time: 30 Minutes

4.004 Emergency Vehicle Operations For Firemen

This video illustrates safety vehicle operations for firemen.

Run Time: 24 Minutes

4.005 Fire Behavior

This video describes combustion and burning process, methods of heat transfer, phases of fire and the hazards of fire.

Run Time: 19 Minutes

4.006 Fire Control 1

Techniques and safety consideration for structural fires, three methods of water Application and basic techniques for controlling other fires are presented.

Run Time: 13 Minutes

4.007 Fire Extinguishers

This video teaches basic fire protection, and how to use a fire extinguisher.

Run Time: 11 Minutes

4.008 Incident Command for Firemen: Part 1

This video presents safety commands for firemen.

Run Time: 21 Minutes

Fire Service / Emergency (continued)

4.009 Incident Command for Firemen: Part 2

This video presents more safety commands for firemen.

Run Time: 23 Minutes

4.010 Rescue BBP: Nothing to Fear

Utilize the expertise of firefighters and EMT'S to explain the importance of taking proper precautions concerning deadly bloodborne pathogens.

Run Time: 22 Minutes

4.011 Twenty Five Key Fire Safety Behaviors

This video illustrates general safety topics for all firemen.

Run Time: 35 Minutes

4.012 Interior Structural Fire Attack Training

Fire attack training is described on interior structures.

Run Time: 39 Minutes

4.013 LP Gas

Run Time: 31 Minutes

4.014 Disaster Safety: Aftermath and Cleanup

DVD ONLY

No matter what type of disaster you are responding to, this video will provide you with a good understanding of the various conditions and situations you may face. You will learn about assessing hazards, safely handling and clearing debris, dealing with animals, handling human remains, personal protective equipment, handling stress and protection from hazards such as lead, asbestos and other chemicals.

Run Time: 17 Minutes

4.015 Back Safety for First Responders

DVD ONLY

While your EMTs, firefighters and law enforcement officers take care of others, you have to take care of them. To keep them healthy, lean on these solid safety techniques and exercises to keep their back muscles strong and flexible. Some topics discussed in this video are: 1)Back structure, 2)Repetitive stress illnesses/reverse stretching, 3)Common first responder back injuries, 4)Proper lifting techniques, 5)Training points for handling stretchers, gurneys and fire hoses.

Run Time: 19 Minutes

Fire Service / Emergency (continued)

4.016 Occupational Disease Prevention for Firefighters

DVD ONLY

During the course of their careers, firefighters may be exposed to a number of air contaminants and other environmental factors that can cause cardiovascular disease, cancer and noise-induced hearing loss. This video discusses some of the common exposures firefighters face in the field and in fire stations and what they can do to reduce their risk of contracting occupational diseases. Some topics covered are: medical programs, fitness programs, nutrition programs, PPE and on-scene incident management. This video ends up with a discussion of the problems facing smaller fire departments to acquire the resources needed to implement needed programs, and offers solutions to solve this dilemma.

Run Time: 25 Minutes

Fleet / Maintenance Shop

5.001 A Matter of Degree: Part 1

A welding torch can be one of the most dangerous tools on any job site.

Run Time: 5 Minutes

5.002 Amputation Injuries

Injuries can be devastating. First aid can save the life or limb of amputation victims.

Run Time: 5 Minutes

5.003 The Invisible Killer: Carbon Monoxide

Carbon monoxide in the workplace is an invisible killer that strikes without warning. Learn to recognize its symptoms and first aid procedures to help anyone overcome it.

Run Time: 5 Minutes

5.004 City Driving

You face many distractions and hazards while driving in the city.

Run Time: 5 Minutes

5.005 City Driving Tactics: 2nd Edition

Within one mile on a city street, a driver has to make approximately 58 separate decisions.

Run Time: 20 Minutes

5.006 Cutting It Short: Part 1

Mowing the grass can be dangerous if safety is neglected.

Run Time: 5 Minutes

5.007 Cutting It Short: Part 2

Riding lawn mowers can be dangerous when safety is ignored.

Run Time: 5 Minutes

5.008 Dock Safety – Lift Trucks

Motorized vehicles and pedestrians don't mix. Some of the most important things you can do to prevent lift truck accidents are covered.

Run Time: 5 Minutes

Fleet / Maintenance Shop (continued)

5.009 Dozer Safety, Maintenance and Operation: Hydrostatic Drive Models (C-Series)

This video covers safety operation and maintenance operation.
Hydrostatic drive (C-series)

Run Time: 26 Minutes

5.010 Dozer Safety, Maintenance and Operation: Torque Converter (G-Series)

This video covers safety operation and maintenance operation.
Torque converter- daily service (G series)

Run Time: 26 Minutes

5.011 Driving Defensively 1

Workers are reminded of dangers in daily driving routines and offered defensive driving principles.

Run Time: 5 Minutes

5.012 Driving Defensively 2

Part 2 explains more ways to prevent accidents by driving defensively.

Run Time: 5 Minutes

5.013 Electrical Hazards: Common Mistakes

This is a general electrical shop safety video.

Run Time: 6 Minutes

5.014 Forklift Safety

This video is a forklift program that meets OSHA requirements.

Run Time: 16 Minutes

5.015 Fueling A Machine

DVD ONLY

Refueling a machine can be dangerous.

Run Time: 5 Minutes

5.016 Good Driving is an Attitude

Driving safety is a conscious effort. Good driving begins with a good attitude.

Run Time: 5 Minutes

Fleet / Maintenance Shop (continued)

5.017 Handling the Pressure (Hydroblasting)

A quick overview is offered of what you ought to know anytime you're working around hydroblasting.

Run Time: 5 Minutes

5.018 Hand Tool Safety

This video alerts viewers to the potential hazards of simple hand tools and illustrates how common sense is the best tool of all.

Run Time: 5 Minutes

5.019 Intersections

Nearly half of all urban accidents occur at intersections. This video teaches how to be safe at intersections.

Run Time: 5 Minutes

5.020 Lighting Up Your Life

How much light is too much or not enough for safety?

Run Time: 5 Minutes

5.021 Lockout/Tagout (Hazardous Energy Sources)

Procedures and reasons to use lockout/tagout are shown.

Run Time: 5 Minutes

5.022 Machine Safety Guards

Machine guards protect the worker from dangerous moving machine parts. See how machine guards work and learn some safety tips to keep in mind when using them.

Run Time: 5 Minutes

5.023 Machine Shop Safety

This video stresses the importance of good housekeeping in the machine shop, the importance of following safe work practices and wearing the appropriate personal protective equipment.

Run Time: 8 Minutes

Fleet / Maintenance Shop (continued)

5.024 Night Driving Tactics

This video teaches that nighttime driving is riskier than daytime driving.

Run Time: 17 Minutes

5.025 Portable Generators

Hazards associated with portable generators include risks of electric shock, carbon monoxide poisoning, fires and burns.

Run Time: 5 Minutes

5.026 Portable Power Tools: Vol. 3

The circular saw is featured in this video. Learn how to avoid hand and leg injuries.

Run Time: 23 Minutes

5.027 Portable Power Tools: Vol. 4

DVD ONLY

Portable sanders, portable drills, routers and portable power planer are featured in this video.

Run Time: 21 Minutes

5.028 Stationary Power Tools: Vol. 1

Safety and proper use of table saw, radial arm saw and band saw are presented on this training tape.

Run Time: 23 Minutes

5.029 Stationary Power Tools: Vol. 2

Safety of the drill press, bench sander, grinder, miter saw and jointer are illustrated on this video.

Run Time: 27 Minutes

5.030 Power Tools: General Safety

Learn more about the many uses and hazards of power tools.

Run Time: 5 Minutes

5.031 Pulling Trailers

Towing a trailer is a big responsibility. Follow safe procedures to ensure your safety and the safety of others.

Run Time: 5 Minutes

Fleet / Maintenance Shop (continued)

5.032 Right-of-Way Mowing Safety

This video teaches a safer way to mow grass on and off right-of-way. It also provides maintenance and safety tips.

Run Time: 23 Minutes

5.033 Safe Driving

This video is a good refresher of the basics of safe driving for occupational drivers.

Run Time: 8 Minutes

5.034 Sharing the Road With Rolling Rigs

Big rigs and passenger cars can be a volatile mix.

Run Time: 5 Minutes

5.035 Shock Hazards – Power Tools

DVD ONLY

Learn simple ways to prevent electric shock from power tools.

Run Time: 5 Minutes

5.036 Short Cut to Disaster 2

Chainsaws, when properly used can be invaluable tools.

Run Time: 5 Minutes

5.037 The Five Minute Inspection

In just five minutes you can take the steps you need to inspect your rig before you hit the road, or something on it.

Run Time: 5 Minutes

5.038 The Right Tool

The tool that's the wrong size or is used in the wrong way won't get the job done and can lead to injury.

Run Time: 5 Minutes

5.039 Tractor Safety

Tractors are "Power on Wheels." That power can help you, injure you, or kill you.

Run Time: 5 Minutes

Fleet / Maintenance Shop (continued)

5.040 Traffic Safety

Traffic safety deals with simple traffic safety in defining road management and explaining how to effectively avoid becoming a statistic on the roadways.

Run Time: 8 Minutes

5.041 Utility Vans: Part 1

When driving a utility van, inspect your vehicle and secure tools and cargo to help reduce the risk of accidents.

Run Time: 5 Minutes

5.042 Utility Vans: Part 2

The keys to safety are knowing your vehicle and its limitations, and knowing how to handle your vehicle safely.

Run Time: 5 Minutes

5.043 Vehicle Safety

This video offers basic safe driving tips for occupational drivers.

Run Time: 13 Minutes

5.044 Welding and Cutting Safety 2

This video shows you how to control the power used in welding and cutting.

Run Time: 5 Minutes

5.045 Wheelbarrows

Like any tool there is a right way and a wrong way to use wheelbarrows.

Run Time: 5 Minutes

5.046 Winter Driving

How do you avoid slipping and sliding while driving on snow and ice?

Run Time: 5 Minutes

5.047 T-L-B

Working with tractor-loader-backhoe puts you in the center of countless hazards.

Run Time: 5 Minutes

Fleet / Maintenance Shop (continued)

5.048 Driving Safety

This video provides safe driving strategies to consider and some limits to keep in mind while driving a vehicle.

Run Time: 13 Minutes

5.049 Driving Distractions of the Professional Driver ***DVD or VHS***

This video is designed for the driver who has unique distractions tied into their daily routine of driving for their organization.

Run Time: 17 Minutes

5.050 Backing and Parking

Thirty percent of all accidents are backing related. Learn how to reduce those accidents and their associated claims.

Run Time: 13 Minutes

5.051 Trucks, Vans and Other Delivery Vehicles ***DVD or VHS***

This video addresses the many unique aspects of driving vehicles where weights change, blind spots and other hazards.

Run Time: 17 Minutes

5.052 Why Do We Drive the Way We Do?

When many drivers get into their vehicles, they go on “autopilot” while others focus intently on their driving to get to where they are going as quickly as possible. Both drivers have to make choices behind the wheel. They are taking risks and putting themselves and others in danger.

Run Time: 11 Minutes

5.053 Landscaping Equipment: Safety and Maintenance

This video covers topics from how to properly dress when using landscaping equipment to how to maintain equipment. Some of the equipment discussed are mowers, string trimmers, chainsaws and chippers. How to handle and store chemicals such as fertilizers and herbicides are also discussed.

Run Time: 16 Minutes

5.054 Backing, Parking and Intersections ***DVD ONLY***

This video describes how to be safe when you must back up and when you park a vehicle. It also discusses safety in the three types of intersections: controlled intersections, uncontrollable intersections and blind intersections.

Run Time: 18 Minutes

Fleet / Maintenance Shop (continued)

5.055 Distracted Driving: At What Cost?

It is estimated that 25 to 50 percent of vehicle crashes involve distracted drivers. This video describes exactly what a distraction is. It also interviews a person who knows firsthand the tragic consequences of distracted driving.

Run Time: 14 Minutes

Run Time: 10 Minutes (Concise Version)

5.056 Safe Driving Tactics: The Blindfold Effect

We would never try to drive blindfolded, but we might as well be when we let distractions get in our way. This video discusses how to anticipate, adjust and assume nothing while driving. It also discusses intersections, backing and following too closely.

Run Time: 18 Minutes

5.057 Backhoe Safety: Inspection and Walk Around

DVD ONLY

Backhoes are great pieces of equipment. They must be inspected before you use it, every time you use it. It is the law. This video is about how to perform a thorough and accurate pre-shift backhoe inspection.

Run Time: 14 Minutes

5.058 Driving Safely in Winter Conditions

DVD ONLY

The leading cause of death in winter storms is transportation accidents. This video teaches you how to react if you must drive in winter conditions. It talks about things you can do to prevent accidents in winter conditions also.

Run Time: 18 Minutes

5.059 The Extreme Driving Quiz

DVD ONLY

This video teaches you how to handle many difficult driving situations. Some topics discussed are road rage, cell phones, stalled cars, failed brakes, drunk drivers, roll overs, carjacking, bad weather and much more.

Run Time: 46 Minutes

5.060 Electrical Safety: Basic Principles

DVD ONLY

Wherever there are possible electrical hazards to people, equipment and property, your personal safety depends on understanding and practicing three things: (1) basic principles of electrical safety, (2) safe work practices and (3) correct response to emergencies. This video covers key points about basic principles of electricity.

Run Time: 15 Minutes

Fleet / Maintenance Shop (continued)

5.061 Road Rage: Highway Havoc

DVD ONLY

Road Rage is growing, becoming pervasive and is often fatal. This video interviews road rage victims and a road rage aggressor who is now in prison. It also discusses the reasons that road rage occurs, how to protect yourself in a road rage situation and what to do if you feel yourself getting caught up in a road rage incident.

Run Time: 20 Minutes

5.062 A DUI Story....What If?

DVD ONLY

Alcohol is society's legal, oldest and most popular drug. Since it is legal, most people don't consider it a drug, yet it can considerably influence and alter our thinking, judgment and motor skills. Those are three important things you will need when you operate a vehicle or any piece of machinery. This video tells the story of a man who was driving a company vehicle home. He stopped to play pool and hang out with some friends on his way home. He made some poor choices. Learn about how this event changed his life and the consequences he has had to face.

Run Time: 28 Minutes

5.063 Defensive Driving for Government Employees

DVD ONLY

As a government employee, your highest risk of death is behind the wheel. Sometimes accidents cannot be avoided, but you can change your habits and reduce the chances. Some of those basic driving techniques that you learned may have worn off. This video revisits those good driving practices and principles as well as highlights some new issues that will make you a safer and more courteous driver.

Run Time: 19 Minutes

5.064 Backhoe Operator's Safety and Responsibility

DVD ONLY

Backhoes are one of the most common types of construction equipment around today. The backhoe can do almost anything. Backhoe operators should be trained and authorized by the company. They are skilled professionals and are responsible for an expensive piece of equipment as well as the safety of those that are working on the project. This video also discusses backhoe operator's PPE and the backhoe's capabilities and limitations.

Run Time: 8 Minutes

5.065 Bucket Truck Safety

DVD ONLY

Bucket trucks are great tools that are used in a broad range of industries for a variety of uses. But they can be dangerous. This video discusses the hazards associated with bucket trucks and steps you can take to help minimize your risks and help keep you and those around you safe. Also covered in this video are the daily inspection, work site inspection, minimum approach distance, fall protection, tip over prevention, collision hazards and electrocution hazards associated with bucket trucks.

Run Time: 12 Minutes

Fleet / Maintenance Shop (continued)

5.066 **Welding Safety: High Impact**

DVD ONLY

Nowhere is personal safety more important than in welding and cutting. This video will help you understand why welding accidents happen and what you can do to protect yourself. Other topics covered in this video are PPE, ventilation, handling and storage of cylinders, equipment inspections and understanding fire and safety requirements for welding and cutting.

Run Time: 19 Minutes

Gas Department

6.001 Line Breaking

This video illustrates how to safely manage the materials flowing through a pipeline system. Lockout and tagout/emergency response are also covered.

Run Time: 16 Minutes

6.002 Oxyfuel Gas Cutting: The Sure Cut

Preventing spark and spatter when performing Oxyfuel gas cutting is essential for the welder's safety. This course details proper safety procedures for oxyfuel gas cutting. It covers Proper safety equipment, hook-up procedures and ventilation.

Run Time: 12 Minutes

6.003 Compressed Gas: Safety Awareness

Pressurized gases are used in so many ways that people take them for granted – to their detriment. Useful they may be, but they are dangerous if handled improperly. Ease the pressure with this program, which covers details on safe and proper handling.

Run Time: 22 Minutes

General Accident Prevention

7.001 American Red Cross Emergency Test

The purpose of this video is to provide guidance on how to prevent accidents, handle accidental injuries and prepare for natural disasters. It also covers potential safety hazards at home and rescue techniques.

Run Time: 31 Minutes

7.002 A-OK Finger Safety

Finger injuries, even minor ones can impair the ability to work productively. With proper gloves, finger injuries can be avoided.

Run Time: 5 Minutes

7.003 Avoiding Dog Bites

This video illustrates how to prevent dog bites.

Run Time: 16 Minutes

7.004 Back Belts

Back belts can help reduce lifting related back injuries, but they need to be used correctly.

Run Time: 5 Minutes

7.005 Digging Up Trouble

North America is criss-crossed with a spider web of pipelines. When digging, avoid being caught in the web.

Run Time: 5 Minutes

7.006 Disabled Vehicle Accident Procedures

In this video learn what to do with a disabled vehicle, reporting accidents, accident scene procedures, emergency procedures and vehicle fires.

Run Time: 16 Minutes

7.007 Disability Awareness

All people have something to offer to life. President Bill Clinton appears in this video.

Run Time: 25 Minutes

General Accident Prevention (continued)

7.008 Dog Bite Prevention

This program is designed for service personnel, mail carriers and pedestrians.

Run Time: 15 Minutes

7.009 Dog Bite Prevention

When exposed to dogs learn how to prevent from getting dog bit.

Run Time: 10 Minutes

7.010 Employee Safety Orientation

This video is crucial for new employees but effective for experienced employees too. Proper clothing, personal protective equipment, fire protection, mechanical and electrical safety are all covered.

Run Time: 12 Minutes

7.011 Eye Injuries

Injuries to the eyes can happen instantly. Use proper eye protection.

Run Time: 5 Minutes

7.012 Eye Protection

This video teaches how to protect eyes against heat, particles, dust, chemicals and electricity.

Run Time: 7 Minutes

7.013 First Aid for Accidents

This video will teach the basic principles of industrial first aid.

Run Time: 17 Minutes

7.014 Getting Your Back Into It

Knowing how your back works can help avoid painful and costly injuries.

Run Time: 5 Minutes

7.015 Head Injuries

DVD ONLY

Take all head wounds seriously. This video teaches you first aid procedures and how to know when to seek medical care.

Run Time: 5 Minutes

General Accident Prevention (continued)

7.016 Hearing Conservation

There are two types of noise in the workplace, continuous and impulse.

Run Time: 12 Minutes

7.017 Hearing Protection: HCP & PPE

Describes why hearing conservation plans and personal protective equipment are important in controlling noise exposure. Different types of hearing protection and their use and care are demonstrated.

Run Time: 10 Minutes

7.018 Housekeeping: General Work Space

Clutter in the workplace can often get in the way of safety.

Run Time: 5 Minutes

7.019 Housekeeping

Many problems in the workplace are caused by a lack of cleaning. Dirty tools and cluttered work areas make it difficult to work, wasting time and effort.

Run Time: 12 Minutes

7.020 Human Behavior – Reducing Unsafe Acts

General safety is stressed in this video. It's a good program for both employees and supervisors.

Run Time: 11 Minutes

7.021 IFICOULDAWOULDASHOULD

How does it feel to know you've gambled with safety and lost with a fall?

Run Time: 5 Minutes

7.022 Incident Reporting: You Can Save a Life

This video stresses the importance of following safety standards, controlling hazards and reporting unsafe work conditions.

Run Time: 16 Minutes

7.023 Judge, Jury and Executioner

Ignoring potential accidents can be a deadly mistake.

Run Time: 5 Minutes

General Accident Prevention (continued)

7.024 Knives and Boxcutters

Knives disable more people than any other hand tool.

Run Time: 5 Minutes

7.025 Know Your ABC's: Fire Extinguishers

In this video different types of fire extinguishers and their appropriate uses are discussed.

Run Time: 5 Minutes

7.026 Lyme Disease: Danger In The Grass

This video tells how Lyme Disease is spread and describes symptoms and the long-term effects.

Run Time: 13 Minutes

7.027 Murder On Your Hands

Hand injuries account for nearly one third of all workplace accidents. The need for proper hand protection is stressed.

Run Time: 5 Minutes

7.028 Near Misses

DVD ONLY

Near misses are accidents that could have happened, but didn't. The video identifies sources of potential accidents.

Run Time: 5 Minutes

7.029 Outdoor Safety: Critters and Plants

The beauty and tranquility of the outdoor world may be dangerously deceptive to the unwary and uninformed. Learn about unexpected hazards and valuable lessons in outdoor safety.

Run Time: 5 Minutes

7.030 Permit Required Confined Space

Know the categories and examples of confined spaces, how to be aware of certain atmospheric conditions within a confined space, and what OSHA requires.

Run Time: 5 Minutes

7.031 Personal Protective Equipment: Overview

There is a wide assortment of personal protective equipment. Choose the right one for the job.

Run Time: 5 Minutes

General Accident Prevention (continued)

7.032 Protective Clothing

Learn general protection of the body, head, eyes, hands, and feet.

Run Time: 12 Minutes

7.033 Protection Against Hepatitis B in the Workplace

Hepatitis B is a potentially life threatening bloodborne pathogen that infects a quarter million people every year.

Run Time: 5 Minutes

7.034 Protective Equipment

Protective gear (hard hats, goggles, gloves, and other equipment) does no good if not used properly.

Run Time: 5 Minutes

7.035 Pumping Air

Air power tools make a job easier. They can be dangerous if not handled with care.

Run Time: 5 Minutes

7.036 Respirator Care and Use

A respirator can only be protected if it is properly selected, worn and cared for. This video covers the basic points.

Run Time: 9 Minutes

7.037 Respirator Maintenance

View this informative lesson on the importance of maintaining respirators to protect one from airborne hazards. It includes inspection, cleaning, repair and storage.

Run Time: 6 Minutes

7.038 Respiratory Protection

Exposure to respiratory hazards can damage your lungs. Different types of respirators and respirator use and care are covered in this video.

Run Time: 6 Minutes

General Accident Prevention (continued)

7.039 Safe Practice for Custodial Workers

Bloodborne pathogen protection for custodial and maintenance workers is reviewed. Safe methods to clean up spills, dispose of needles, dispose of condoms and working with floor machines are covered.

Run Time: 25 Minutes

7.040 Self-Contained Respirators: Part 1

A Self-Contained Breathing Apparatus provides the worker with protection from atmospheric conditions that may be toxic.

Run Time: 5 Minutes

7.041 Slag Injuries to the Eyes

When thrown into the eye, even the smallest particle can do great harm. Employees are reminded of the need for proper eye protection.

Run Time: 5 Minutes

7.042 Slippin' and Trippin'

Workers learn a few simple housekeeping techniques to help reduce slipping and tripping in the shop.

Run Time: 5 Minutes

7.043 Slip, Trips and Falls

This video is designed to make workers aware of the high risk of injury due to slipping, tripping and falling in the workplace.

Run Time: 17 Minutes

7.044 Space Heaters

DVD ONLY

This video alerts us to the hazards of portable space heaters.

Run Time: 5 Minutes

7.045 Sorry, I Didn't Hear That

Work site noises can impair hearing. The threat of noise pollution is not a joke.

Run Time: 5 Minutes

General Accident Prevention (continued)

7.046 Stairways and Ladders: Overview

Falls from ladders and stairways are common. Use common sense.

Run Time: 5 Minutes

7.047 Stepladders

Stepladder accidents result from poor conditions, improper selection or improper set-up and use.

Run Time: 5 Minutes

7.048 Stop the Bleeding

With severe bleeding, quick and proper action is vital. The basic first aid procedures are demonstrated in this video.

Run Time: 5 Minutes

7.049 The Big Stretch

Stretching can make employees feel good and work better. The importance of stretching and its benefits are shown.

Run Time: 5 Minutes

7.050 Fire Extinguishers: Safe Use

DVD ONLY

Portable fire extinguishers, when used properly, can minimize personal and property damage if a fire occurs. Knowing when and how to use a fire extinguisher is one key to fire safety.

Run Time: 5 Minutes

7.052 When Lightning Strikes

Lightning is a powerful deadly force. Learn more about lightning, and lightning safety.

Run Time: 5 Minutes

7.053 Where Are Your Hands?

Hand injuries account for a major portion of on-the-job accidents in today's workplace.

Run Time: 5 Minutes

7.054 Work Surface Safety

Good employee housekeeping and good employee practices are reviewed.

Run Time: 6 Minutes

General Accident Prevention (continued)

7.055 Worker's Enemy Number One

Learn how to avoid back injury through common sense practice.

Run Time: 5 Minutes

7.056 Pro-Active Safety

Pro-Active Safety puts you in charge of your own destiny. Prevent accidents by systematically developing the safest practical methods of working.

Run Time: 5 Minutes

7.057 A Lift to Safety

DVD ONLY

Although important on many job sites, personnel lift baskets can be extremely dangerous. Proper procedures for a safe lift are reviewed.

Run Time: 5 Minutes

7.058 Heat Can Kill

Learn to identify heat stroke symptoms and to administer proper first aid treatment.

Run Time: 5 Minutes

7.059 Hearing Protection Devices

Wearing a hearing protection device is the only way to prevent hearing loss from exposure to excessive noise. However, to be effective, HPD's must be worn correctly and consistently.

Run Time: 5 Minutes

7.060 Now Hear This

Hearing loss caused by excessive noise may be permanent. Help protect your hearing by knowing how much noise is too much noise, and by following requirements for hearing protection.

Run Time: 5 Minutes

7.061 Falls

Falls are one of the most common types of accidents, yet one of the easiest to prevent. The causes of falls and ways they can be avoided are examined.

Run Time: 5 Minutes

General Accident Prevention (continued)

7.062 Heat Illness

Overexposure to high temperatures and humidity can quickly lead to heat-related illness. Early recognition and proper treatment are necessary to help prevent a medical emergency.

Run Time: 5 Minutes

7.063 Back to Basics

Four out of five Americans will have back problems. This video shows what can cause back injuries and how you can avoid them.

Run Time: 5 Minutes

7.064 Self-Help for Back Pain

Understanding back pain occurrence goes a long way toward prevention. This video explains some methods to prevent back injury and simple exercises for relieving pain.

Run Time: 5 Minutes

7.065 Safety Awareness: Real Accidents, Real Stories

DVD or VHS

This emotionally charged production has injured workers tell their story about how they became complacent and got hurt.

Run Time: 18 Minutes

7.067 Responding to Bites and Stings

This video helps you to understand how to respond in a situation where someone has been bitten or stung by a poisonous spider, snake, etc.

Run Time: 9 Minutes

7.068 Responding to Allergic Reaction

This video helps you to understand how to respond in a situation where someone has an allergic reaction.

Run Time: 7 Minutes

7.069 Responding to Seizures

This video helps you to understand what a seizure is, causes of a seizure and how to respond to a seizure victim.

Run Time: 8 Minutes

General Accident Prevention (continued)

7.070 Responding to Asthma

This video helps you to understand what asthma is, symptoms/signs of an asthma attack and how to respond to an asthma victim.

Run Time: 7 Minutes

7.071 Responding to Stroke

This video helps you to understand what a stroke is, symptoms/signs of a stroke and how to respond to a stroke victim.

Run Time: 9 Minutes

7.072 It's Up to Me

If you want a workplace that is injury free it is up to each and every employee to follow safety procedures and guidelines and take them seriously.

Run Time: 14 Minutes

7.073 Elements of Back Care: General Industry

This video describes how to prevent back injury by stretching and exercising. It also discusses body mechanics and proper lifting techniques.

Run Time: 14 Minutes

7.074 Stretching Out at Work

This video stresses the importance of stretching to avoid injury.

Run Time: 12 Minutes

7.075 Stress Management: A Practical Approach

This video illustrates the right way and the wrong way to deal with stress in the workplace.

Run Time: 18 Minutes

7.076 It Only Takes a Second (Discussion Guide)

This video has no words. It is designed to grab the viewer's attention and focus their thoughts on safety. The video is an excellent tool to set the stage for discussion on nearly any safety issue.

Run Time: 3 Minutes

General Accident Prevention (continued)

7.077 **Back Safety: Exercise and Ergonomics**

This video teaches you how to be proactive in preventing back injuries. It also talks about the benefits of stretching and teaches four basic stretches for the lower back.

Run Time: 16 Minutes

7.078 **Accidents Aren't One of Those Things**

This video has a former paramedic describing accidents that he has responded to that wouldn't have happened if proper safety procedures were followed.

Run Time: 20 Minutes

7.079 **Tree Trimming Safety**

Run Time: 20 Minutes

7.080 **Chainsaw Safety**

Run Time: 12 Minutes

7.081 **Employee Awareness: Pool Safety**

DVD or VHS

Run Time: 9 Minutes

7.082 **The Safe Operations of Utility Carts (Golf Carts)**

DVD or VHS

Run Time: 10 Minutes

7.083 **Inspecting Playgrounds for Hazards**

Run Time: 35 Minutes

7.084 **Softball and Baseball Field Maintenance and Safety**

This video teaches how to maintain softball and baseball fields and how to keep the area safe. It also recommends a safety checklist to be used as part of a regular maintenance program.

Run Time: 25 Minutes

7.085 **On The Road: The Lighter Side of Lifting**

This video advises us on how to lift safely. Some suggestions are: (1) keep it close and keep the curves – in your spine, (2) build a bridge, (3) warming up, (4) stretching and (5) stance.

Run Time: 21 Minutes

General Accident Prevention (continued)

7.086 Responsibility

No one comes to work planning to work unsafely, but sometimes we get in a hurry or have other things on our minds or just get careless. We need to take control of the situation and be responsible for our actions and reactions.

Run Time: 10 Minutes

7.087 Safety Guidelines for Every Employee

DVD ONLY

This video covers several very important safety topics that every employee should be familiar with such as personal protective equipment, bloodborne pathogens, hazardous communications and good housekeeping.

Run Time: 14 Minutes

7.088 Preventing Slips, Trips & Falls (General Industry)

DVD ONLY

This video covers how and why slips, trips and falls happen and how to prevent them. It goes over prevention both indoors and outdoors.

Run Time: 14 Minutes

7.089 Working Safely in Hot Environments

DVD ONLY

This video teaches how to recognize the symptoms of heat related illnesses such as heat rash, heat cramps, heat stress, heat exhaustion and heat stroke as well as how to prevent and treat them.

Run Time: 15 Minutes

7.090 Overexertion: Injury Prevention

DVD ONLY

Objects can wear and break down, but we often think of our bodies as indestructible. Overexertion type injuries are the highest percentage of worker compensations costs. These types of injuries are often associated with lifting, pushing, pulling, tossing and handling materials. In this video you will learn how the body functions, risk factors associated with overexertion type injuries and preventive measures you can utilize to reduce your exposure and prevent injuries. This video will educate and motivate your employees to make the proper decisions and lifestyle adjustments to ensure their health and safety.

Run Time: 14 Minutes

7.091 An Extra Effort For Safety Sake

DVD ONLY

Everyone is responsible and accountable for safety. Whether you are a new employee, a 20 year veteran or a plant manager, this program is ideal for everyone at your site. This video teaches key principles to help ensure an accident free workplace. It also discusses hazards that cause workplace accidents such as overexertion, falls, moving vehicles, hazardous materials, electricity, confined spaces, etc.

Run Time: 15 Minutes

General Accident Prevention (continued)

7.092 Dealing With Stress

DVD ONLY

Dealing with stress is a daily task for anyone balancing a full time job and a normal life in today's world. It is your reaction to stress that can make you sick, not a stressful situation. This video will teach you how to identify stress and how to learn to cope with it. The secret to fighting stress is knowing yourself and understanding how your body responds to stressful situations.

Run Time: 16 Minutes

7.093 Fire Extinguishers: Ready to Respond

DVD ONLY

This video teaches you what makes fires burn, the five different classes of fire and why you have to use the right type of extinguisher to put out each kind of fire. You will also learn how to inspect a fire extinguisher to make sure it is ready when you need it and how to use a fire extinguisher effectively.

Run Time: 14 Minutes

7.094 Pro-Active Safety: The Self-Inspection

Pro-Active Safety means that you pre-act instead of react. Pro-active workers beat danger to the punch. By using the four step safety plan, I.A.I.M.(Identification, Assessment, Intervention and Maintenance) you will learn how accidents can usually be prevented. Self inspections are done to make sure possible hazards don't turn into accidents. This video also discusses the task exposure analysis (T.E.A.) and the continuous self inspection (C.S.I.).

Run Time: 15 Minutes

7.095 Don't Bet Your Life on Unsafe Acts

DVD ONLY

This video shows several people taking short cuts and risking their lives in the process. When you do this you are basically betting your life that nothing will go wrong! This video examines some of the reasons people choose to place their lives in danger. We can learn to recognize and avoid making these types of tragic decisions.

Run Time: 14 Minutes

7.097 Heat Stress: Staying Healthy, Working Safely

DVD ONLY

This video discusses the hazards of working in the heat and how to minimize the health hazards that go along with working in a hot environment. The symptoms of heat cramps, heat exhaustion and heat stroke are discussed in this program as well as what steps we can take to prevent and/or treat these heat related illnesses.

Run Time: 15 Minutes

General Accident Prevention (continued)

7.098 **The Back Owner's Guide to Lifting and Stretching**

DVD ONLY

The speaker in this video is an occupational therapist named Michael Melnik who speaks to groups around the country about lifting and stretching. He offers many tips to make lifting less harmful to our backs and gives us choices to make when we are lifting.

Run Time: 16 Minutes

7.099 **The Newcomers**

DVD ONLY

This riveting program follows five employees as they go through a busy day at work. Viewers then keep track of safety no- no's, watch the consequences and get shocked by the sobering twist at the end! This will give employees an eye-opening look at hazard recognition.

Run Time: 22 Minutes

7.100 **Emergency Action Plan: The Team Approach**

DVD ONLY

An emergency action plan is a detailed plan developed specifically for your company to outline emergency response procedures and to define employee responsibilities and actions. This program teaches the basics of the emergency action plan. You will learn about: evacuation procedures, assembly and check in, teamwork, practice and personnel responsibility – including your own.

Run Time: 19 Minutes

7.101 **Personal Protective Equipment: The Right Choice**

DVD ONLY

This video gives you a first-hand look at the tragic consequences when you do not wear the proper PPE. Watch a worker's testimony on how he was injured because he didn't wear the right equipment. Once your workers see what COULD happen, then perhaps, unlike the worker in this training program, they'd be more likely to take their PPE seriously. This video covers: (1)Wearing the right PPE for the job, (2)The importance of PPE, (3)Employer's and employee's responsibility, (4)Care and maintenance of PPE and (5)Different types of PPE.

Run Time: 20 Minutes

7.102 **Horizontal Directional Drilling: Safe Work Practices**

DVD ONLY

This video is made by the Underground Contractors Association of Illinois. It provides valuable information on how to prevent accidents and injuries related to horizontal directional drilling operations.

Run Time: 24 Minutes

General Accident Prevention (continued)

7.103 **UCA Safety DVD**

DVD ONLY

This video is made by the Underground Contractors Association of Illinois. It has segments on these topics: Auger boring, General Construction Site, Hazmat, Heavy Equipment Operations, Pipe Handling, Flagging Safety, Trench Shoring and Tunneling Safety. Each segment is approximately 20 minutes long.

7.104 **Public Building Security: It's Everyone's Concern**

DVD ONLY

For buildings that house government agencies, municipal buildings and customer service organizations, maintaining security and dealing with the public becomes a balancing act between public safety and public service. This video examines some security measures such as the use of I.D. badges, metal detectors, other screening methods, security guards, employee awareness and parking restrictions and discusses why these are necessary. It also explores ways of handling high-stress situations involving visitors to the building who may be frustrated and angry by the time they reach you.

Run Time: 18 Minutes

7.105 **Groundskeeping Safety: Dealing with Bugs and Critters**

DVD ONLY

Insects may be small critters, but they can cause serious and even fatal consequences. This program is designed especially for public works, utility, government employees, grounds maintenance personnel or other outdoor workers and is essential for insect protection and general safety in a work environment. Also covered are West Nile Virus, basic PPE, snakes, wasps, bees, fire ants, poison ivy, oak and first aid.

Run Time: 15 Minute

7.106 **Groundskeeping Safety: Be a Pro!**

DVD ONLY

As professional groundskeepers know, maintaining lawns, trees and shrubs requires potentially dangerous equipment and chemicals. Prune and refine your safety measures with this program. It explains how one can avoid unnecessary accidents by thinking: safe or sorry? It also covers: a general checklist for safety, tractors, riding mowers, push mowers, blowers, trim and brush cutting equipment, and a checklist for hazardous materials.

Run Time: 17 Minutes

7.107 **Heat Stress for Public Employees: Seeing Red**

DVD ONLY

Heat Stress, heat stroke, heat rashes and heat cramps are all dangerous to your employees. This training DVD will give them the knowledge they need to avoid the dangers of working in hot, humid conditions. Also discussed in this program are: acclimatization, hydration, proper clothing and signs of fatigue.

Run Time: 14 Minutes

General Accident Prevention (continued)

7.108 **Protecting Your Feet: Learning the ABC's**

DVD ONLY

People take their feet for granted. What is the result of that negligence? 100,000 injuries a year! Make sure your workers don't make the same slip-up. Show them the ways people can injure their feet. They will learn prevention basics and become familiar with ANSI's and OSHA's footwear standards with this program.

Run Time: 15 Minutes

7.109 **Working Safely in Cold Weather**

DVD ONLY

This video discusses a number of the hazards that working in the cold presents, such as cold stress, hypothermia frost bite & first aid for these conditions. It also shows you ways to plan ahead, such as how to dress & what to eat & drink, so you can protect yourself from these dangers. This program also gives you some tips on driving in cold, icy weather. For the purposes of this video, cold weather is considered anything below 59 degrees.

Run Time: 15 Minutes

7.110 **A Practical Approach to Ladder Safety**

DVD ONLY

Ladders are used to reach elevated areas in just about every type of job, industry and at home. There are many types of ladders and countless jobs performed with these valuable tools. Most of us are aware of the basic safety rules for ladders, but choose to ignore them, often taking our safety for granted when using ladders. Unfortunately this attitude leads to 300 deaths and 165,000 injuries each year. Our safety while on a ladder depends on our following safe work practices. This video discusses the basic safety rules you should follow to keep from being injured or killed in a ladder related incident. Safe work practices must be followed EVERY time you use a ladder to ensure your safety, both at work and at home.

Run Time: 19 Minutes

7.111 **Back Injury Prevention for Public Entities(Texas Municipal League)*DVD ONLY***

Back injuries are prevalent and continue to be one of the leading on-the-job injuries experienced by public entity employees. This training Program is designed to address this ongoing concern by providing real scenarios faced by public entity employees performing daily jobs and tasks. This video was developed by the Texas Municipal League-Intergovernmental Risk Pool Loss Prevention staff.

Run Time: 28 Minutes

General Accident Prevention (continued)

7.112 Workplace Bloodborne Pathogens

DVD ONLY

Workers in many different occupations are at risk of exposure to bloodborne pathogens, including Hepatitis B, Hepatitis C and HIV/AIDS. This exposure may be through needle sticks, sharp injuries, mucous membranes and skin exposures. Topics covered in this video include: epidemiology and symptoms of bloodborne diseases, modes by which bloodborne diseases are transmitted, exposure control plan, PPE, exposure prevention, signs, labels and containers, emergency procedures and follow-up procedures.

Run Time: 16 Minutes

7.113 Workplace Fire Safety

DVD ONLY

Each year in the U.S., 70,000 – 80,000 workplaces experience a serious fire. About 200 employees per year die in these fires and another 5000 are injured. Fire safety becomes everyone's job at a worksite. Employers should train workers about fire hazards in the workplace and about what to do in a fire emergency. This video covers: how fireworks, preventing fires, classes of fires, preparing for a fire emergency and procedures to follow during a fire emergency.

Run Time: 10 Minutes

7.114 Personal Protective Equipment

DVD ONLY

Personal protective equipment, or PPE, is part of your employers program to keep you safe. This video discusses when PPE is needed, who provides PPE in the workplace, OSHA training requirements for PPE and different types of PPE.

Run Time: 24 Minutes

7.115 First Aid: Prepared to Help

DVD ONLY

Being first on the scene of a workplace accident can be cause for panic. But with the training provided in this program, you can be confident that your employees can keep their cool, respond swiftly and apply life-saving measures. Get first-aid tips and learn these emergency response principles: survey the scene, send someone to call for emergency response help, calm yourself, gain the confidence of the victim, and assess the victim's condition.

Run Time: 16 Minutes

7.116 CPR and AED: The Chain of Survival

DVD ONLY

Every two minutes, someone dies of sudden cardiac arrest. When it happens to someone in your workplace, can he or she survive such an event? Do your workers know the four links in the chain of cardiac survival? They are: (1) Early access to care, (2) Early CPR, (3) Early defibrillation or electric shock and (4) Early advanced cardiac life support.

Run Time: 11 Minutes

General Accident Prevention (continued)

- 7.117 **Hazards of Cell Phone Usage** ***DVD ONLY***
- This video demonstrates why cell phone usage can be dangerous when working conditions require full attention and concentration. It shows in realistic and sometimes humorous ways, how distractions can create potentially serious dangers to workers and to others
- Run Time: 7 Minutes
- 7.118 **Safety Procedures for Lawn Mower Operators** ***DVD ONLY***
- This program covers a wide variety of mowers including striping rotary and reel mowers, fueling, trailering and more.
- Run Time: 20 Minutes
- 7.119 **Landscape Power Tool Safety** ***DVD ONLY***
- This video shows safety procedures for chainsaws, string trimmers, power blowers and power pole saws.
- Run Time: 25 Minutes
- 7.120 **Hedge Trimmer Safety** ***DVD ONLY***
- This video demonstrates information for using the hedge trimmer correctly
- Run Time: 7 Minutes
- 7.121 **Video Guide to Chainsaw Safety** ***DVD ONLY***
- The chainsaw can be a very dangerous tool if not used properly. This program demonstrates safety in every aspect of keeping the operator safe. This is a must see program
- Run Time: 23 Minutes
- 7.122 **String Trimmer Safety** ***DVD ONLY***
- The operator must remember that public safety is key. This tool can send projectiles in all directions. It also covers P.P.E., trimming on slopes and more.
- Run Time: 15 Minutes
- 7.123 **Boating Safety** ***DVD ONLY***
- Each year, more than 1,000 Americans die in boating accidents. Common boating hazards and how to avoid accidents are demonstrated.
- Run Time: 5 Minutes

General Accident Prevention (continued)

7.124 **Your Heart: An Owner's Manual**

DVD ONLY

Tightness in the chest may signal a heart attack that has gone too far. Learn what can be done to reduce the chance of a heart attack.

Run Time: 5 Minutes

7.125 **Smoking**

DVD ONLY

Each year millions of smokers attempt to kick the habit. Popular methods of quitting and their effectiveness are covered.

Run Time: 5 Minutes

7.126 **Diabetes**

DVD ONLY

Adult diabetes affects nine million Americans and is responsible for 40,000 deaths per year. Learn to recognize its symptoms and get the right help.

Run Time: 5 Minutes

7.127 **Seat Belts and Air Bags**

DVD ONLY

Every year, over 40,000 Americans die in traffic accidents, and another 3 million are injured. Air bags, combined with lap/shoulder safety belts, offer the most effective protection available for passenger vehicle occupants.

Run Time: 5 Minutes

7.128 **Golf Cart and LSV Safety: On and Off the Course**

DVD ONLY

Golf carts aren't just for the course anymore. Many industries are taking advantage of these and other low-speed vehicles (LSVs) for easy transportation. But with the increase of usage comes an increase of incidents. In fact, thousands of golf cart incidents happen every year, many which are serious and sometimes even fatal

Run Time: 16 Minutes

Hazardous Material

8.001 Cracking the Code

This video provides you with hazard material information and record keeping.

Run Time: 5 Minutes

8.002 Handling Hazardous Materials

This is a refresher lesson on working with and around hazardous materials including training, handling and protection.

Run Time: 6 Minutes

8.003 Hazard Communications - Right to Know

This program meets the legal requirements for training in the use of petroleum products, diesel fuel, office chemicals, paint, and material safety.

Run Time: 10 Minutes

8.004 Hazardous Materials Regulations: Overview

This video should help reduce incidents involving hazardous materials from employees and employers.

Run Time: 5 Minutes

8.005 Hazardous Waste Awareness

This video defines hazardous waste, explains proper management (handling and storage) and protective equipment.

Run Time: 6 Minutes

8.006 Hazwoper Part I: Training and Information

Hazardous waste can pose serious dangers to workers who may be exposed during clean- up operations or emergency response. Proper training and information can help ensure safety.

Run Time: 5 Minutes

8.007 Hazwoper Part II: Hazard Identification and Control

Hazardous waste is a serious safety and health hazard. Identification and control of hazards is essential.

Run Time: 5 Minutes

Hazardous Material (continued)

8.008 Pesticide Primer

Pesticides are made to kill. Whether they kill a pest or a person depends on the dose. Learn what you can do to reduce your exposure to pesticides and their effects.

Run Time: 5 Minutes

8.009 The Anthrax Threat

This video gives a detailed summary of what anthrax is, how someone can become infected and how the infection affects the body. If you or your company receives a suspicious letter or package, knowing what steps to take to deal with the situation are vital to minimizing risk.

Run Time: 15 Minutes

8.010 Chemical and Biological Threat

This video addresses the threat of terrorist acts involving chemical or biological agents and how businesses and individuals can reduce potential risks with information and proper emergency planning.

Run Time: 20 Minutes

8.011 Hazard Communication: Elements of Safety

DVD ONLY

The hazard communication standard ensures that employers keep their employees informed about hazardous chemicals in the workplace. This video will explain (1) what hazcom training is, (2) what physical and health hazards are, (3) how you can be exposed and how to protect yourself from exposure, (4) exposure limits, (5) material safety data sheets and (6) labels and warnings you should be familiar with. Always remember that it only takes one worker to cause an incident. But when everyone works together to scan for hazards, focus on the task at hand and act safely it's a win-win situation.

Run Time: 16 Minutes

8.012 Hazard Awareness is Everyone's Responsibility

DVD ONLY

Public entity employees are exposed to a variety of hazardous conditions that can result in serious injuries and property damage. This video discusses how a three step hazard awareness program including hazard identification, evaluation and control can prevent these accidents from occurring. Common physical, environmental and behavioral hazards are shown. The **MANUAL** that is sent with this video includes a variety of safety inspections forms, photos of common hazardous conditions, behavior based safety checklists, a risk matrix and tips on how to implement a job safety analysis program.

DVD ONLY

Both of these programs feature superb groundfighting training scenarios taught by nationally-regarded D.T. instructor Sgt. Herb Hood of the Cincinnati Police Division. Not only the training but also many video clips are analyzed in which both police and security officers found themselves in groundfighting situations.

Run Time, Part 1: 29 Minutes

Run Time, Part 2: 42 Minutes

Law Enforcement (continued)

9.098 **Corrections/Jailer's Safety 2**

DVD ONLY

In part two, officers gain critical insight into response to jail, prison melees and remaining calm and observant...mental preparation for riot situations...also, inmate scams on officers are explored which is vital especially for new officers; awareness of inmate lying and subterfuge is examined.

Run Time: 31 Minutes

9.099 **Facing Disaster: Part 1**

DVD ONLY

Any community can face disaster in the form of a vicious storm, an accidental calamity, and now potentially, a terrorist attack. This first of a two part series of training videos deals with the havoc wrought by catastrophe. Although this was an anticipated event, because there were warnings, preplanning proved insufficient.

Run Time: 48 Minutes

9.100 **Facing Disaster: Part 2**

DVD ONLY

This second of the two part series discusses preplanning and response to such unexpected disasters as a terror attack, possibly involving weapons of mass destruction, or a catastrophic accident. Such events are possible anywhere, and law enforcement will be right in the thick of it.

Run Time: 44 Minutes

9.101 **Drug-Terror Related Traffic Stops**

DVD ONLY

Retired Maryland State Trooper Mike Lewis, now Sheriff of Wicomico County, Maryland, takes us step-by-step through effective interdiction stops, legal and officer safety considerations, and effective case documentation and presentation.

Run Time: 36 Minutes

9.102 **Drug Concealment Spots**

DVD ONLY

Hidden compartments (traps) and what they contain are limited only by the imaginations of those who transport contraband. In this program, Retired Maryland Trooper Mike Lewis, Fairview Heights (IL) Police Chief Ed Delmore, and Agent Chris Utley from the 21st Judicial District (TN) Drug Task Force demonstrate these hiding places and their contents, discovered in traffic stops on US interstate highways.

Run Time: 32 Minutes

9.103 **Textbook Traffic Stops**

DVD ONLY

Some of the best arrests an officer will make will begin with a traffic violation. It's essential to know the traffic code in their jurisdiction, and the best practices for conducting such stops to make each encounter as safe and professional as possible.

Run Time: 32 Minutes

Law Enforcement (continued)

9.104 Fort Oglethorpe Shootout / OIS Fatal

DVD ONLY

In this program, we will watch as a Georgia officer stops a subject with an active warrant. This stop soon turns lethal and we will discuss the many lessons learned covering topics such as use of lethal force, communications and back-up.

Run Time: 25 Minutes

9.105 OH Officer Groundfight/Off-Duty MO Officer Kills 4 While DUI *DVD ONLY*

In this program, an Ohio officer stops a vehicle for a suspected hit and run incident. The stop soon turns into a violent physical confrontation. Many issues are covered such as knowing when to move up the force continuum, detecting signs that a suspect is getting ready to engage you physically and reacting when your taser doesn't work properly.

Run Time: 20 Minutes

9.106 Cops and Ethics: 2011 Edition

DVD ONLY

This video presents ethical situations faced by real law enforcement officers and both their positive and negative response. It focuses on real-world situations, the response, and the consequences. Not all of what is included is flattering to law enforcement. It is from these situations that we hope to reinforce the need for ethical response.

Run Time: 25 Minutes

9.107 SC Trooper Shot

DVD ONLY

This program discusses the elements involved in investigating and prosecuting a domestic violence case. Thorough police work can make the prosecutor's job much easier by documenting the incident with copious note-taking, use of cameras, and even audio recordings of the victim's account.

Run Time: 26 Minutes

9.108 Traffic Stops of Sovereign Citizens

DVD ONLY

Run time: 40 Minutes

Office Safety

10.001 Computeritis

Computeritis is a cumulative trauma disorder that stems from repeatedly striking the computer keys.

Run Time: 5 Minutes

10.002 Custodial Staff Safety

This video covers office building restroom cleaning, general cleaning and office safety.

Run Time: 11 Minutes

10.003 No More Mr. Mean Screen

By following a few simple steps, working with computers can be safe and more relaxing.

Run Time: 5 Minutes

10.004 Office Ergonomics

This video covers three risk factors found in office environments: repetition force, awkward posture, and position.

Run Time: 18 Minutes

10.005 Office Ergonomic Task Analysis

This video explains potential problems in the office and reducing risks.

Run Time: 16 Minutes

10.006 Office Safety: Fire Plan

Would you know what to do if there was a fire in your office?

Run Time: 5 Minutes

10.007 Office Safety: Personal Workspace

Clutter in the workplace often creates more than an eyesore. It can be a safety hazard.

Run Time: 5 Minutes

10.008 Workstation Ergonomics Part 1: Eyestrain

This video illustrates how computer users are highly susceptible to eyestrain.

Run Time: 5 Minutes

Office Safety (continued)

10.009 Workstation Ergonomics Part 2: Cumulative Trauma Disorders

Computer users are highly susceptible to Cumulative Trauma Disorders caused by repetitive motion at a keyboard.

Run Time: 5 Minutes

10.010 Office Ergonomics: It's Your Move

DVD ONLY

Every year nearly two million American workers suffer musculoskeletal disorders (MSDs). From pinched nerves and strained muscles to inflamed tendons and sore necks, these mild injuries occur when our bodies take a beating beyond their ability to recover. And their effects stretch beyond the physical, workflow reduction, efficiency disruption, absences and decline in productivity. MSDs can strike anyone...even people who work in offices. This program examines the nature of this problem and what you and your employees can do to prevent it.

Run Time: 16 Minutes

Safety Management / Administration

11.001 Accident Investigation

An accident investigation is a process that can help you determine what factors contributed to and what caused a given accident.

Run Time: 12 Minutes

11.003 Coaching Safe Behavior: Part 2

This video teaches why safety meetings are important. All employees should be involved in safety.

Run Time: 7 Minutes

11.004 Drug Testing

DVD ONLY

A recent study by the national institute on drug abuse reports that a large percentage of employed people are drug users.

Run Time: 5 Minutes

11.005 Drug Testing in the Workplace

This video explains why drug testing / screening is necessary and general drug policies.

Run Time: 10 Minutes

11.006 Effective Safety Committees

Safety Committees are an excellent approach to tackling multiple safety problems.

Run Time: 18 Minutes

11.007 Effective Safety Meetings

DVD ONLY

Get the most out of work hours spent on training by sharpening your skills at creating highly effective safety meetings.

Run Time: 5 Minutes

11.008 Emergency Preparedness

Employees and management need to know what potential emergencies exist and how to respond correctly to each one.

Run Time: 14 Minutes

11.009 Emergency Preparedness

This is a good film to establish an emergency plan.

Run Time: 6 Minutes

Safety Management / Administration (continued)

11.010 How to Develop and Implement an Effective Safety Program

This video is designed for administration persons and mid-management. It offers a complete step-by-step guide to developing and implementing an effective safety program.

Run Time: 30 Minutes

11.011 Medical Monitoring: How it Works

Sometimes companies are required to provide physicals for employees. The importance of physical exercise, proper rest and nutrition are covered in this video.

Run Time: 8 Minutes

11.012 OSHA Recordkeeping

This video is designed for administrative persons responsible for safety and insurance records. Proper accident investigation is covered.

Run Time: 12 Minutes

11.013 Prevention of the Most Common Accidents

Safety is not simple common sense. In order for a good safety program to work, management must set a positive example. Basic points on setting this example are covered in this video.

Run Time: 11 Minutes

11.014 Rx for Safety

Careless use of prescription drugs can be dangerous.

Run Time: 5 Minutes

11.015 Safety Committee Participation

This video illustrates a method that can increase interest and participation in weekly company safety meetings.

Run Time: 10 Minutes

11.016 Safety Committees

This program explains how to make safety committees run at their best.

Run Time: 12 Minutes

Safety Management / Administration (continued)

11.017 Safety Program Management: Modules 1 and 2

A step by step approach to managing an effective safety program is presented in this video.

Run Time: 19 Minutes

11.018 Safety Program Management: Modules 3, 4, and 5

A step by step approach to managing an effective safety program is presented in this video.

Run Time: 19 Minutes

11.019 Supervisor's Guide to Accident Reporting

This program explains employee injury reports.

Run Time: 12 Minutes

11.020 Worker's Compensation Fraud

In the United States, workers compensation costs have continued to rise over the last two decades. Insurance premiums are based on an individual company's accident problem. Uninsured (indirect) costs are estimated to be 4 to 10 times that of insured (direct) costs. Learn how worker's Compensation fraud hurts all parties involved.

Run Time: 12 Minutes.

11.021 Workers' Compensation Management

This video explains employee and employer cost of workers compensation.

Run Time: 14 Minutes

11.022 Safety Committees

Safety Committees can play a major role in a company's safety efforts.

Run Time: 5 Minutes

11.023 Safety Coordinator Orientation

This video will assist management personnel or safety coordinators in developing an effective safety program.

Run Time: 23 Minutes

Safety Management / Administration (continued)

11.024 Achieving a Drug Free Workplace: A Supervisor's Responsibility *DVD or VHS*

Between 38 and 50 percent of all workers compensation claims are related to drug or alcohol abuse. This video explains how to implement a drug free workplace program. It explains the role of the Medical Review Officer and also teaches how to be prepared to communicate positively and purposefully with your employees.

Run Time: 36 Minutes

11.025 Achieving a Drug Free Workplace: An Employee's Perspective *DVD or VHS*

Drug use makes job performance go down, accidents go up and safety violations go through the roof. A drug free workplace program helps to prevent these problems and along the way maybe even show the worker that he/she needs help. This video also helps employees to understand the drug testing process and the role of the Medical Review Officer.

Run Time: 28 Minutes

Sanitation – Trash / Recycling

12.001 A User's Guide to Planet Earth

Practical methods of reducing and recycling waste are covered in this film. Also, air pollution, energy, water and forest conservation are addressed. Tom Selleck appears in this video.

Run Time: 31 Minutes

12.002 Do You Know Where Your Trash Is?

Trash holds valuable resources that can be reprocessed and used again. Procedures for recycling at home and at the office are illustrated.

Run Time: 5 Minutes

12.003 Five Keys to Safe Driving

This is an excellent program designed to teach techniques for safe driving and for operating large vehicles on the road. It also covers the five keys to safe driving using the “Smith System”.

Run Time: 13 Minutes

12.004 Front-End Loader Operations and Safety

This video teaches basic operating procedures and techniques for Front-End loaders and helpers. Landfill dumping and general safety are reviewed.

Run Time: 13 Minutes

12.005 On the Road Safety

This video teaches driving safety for sanitation and trash trucks on the highway. Safety tips for operation, backing, stopping distance, and maintenance are covered.

Run Time: 12 Minutes

12.006 Preventing Back Injuries

Driver safety, vehicle safety, riding on vehicles, trash pick-up, and personal protection are all covered in this film.

Run Time: 9 Minutes

12.007 Rear Loader Operations and Safety

Truck operators, helpers, loading the truck, container blockages, and landfill safety are presented in this video. Dumping and residential safety are also illustrated.

Run Time: 11 Minutes

Sanitation – Trash Recycling (continued)

12.008 Residential Pick Up Driving and Helpers

This video illustrated safety in driving procedures, riding on vehicles, trash pick-up, personal protection, customer relations, slips, falls and back door pick-up.

Run Time: 13 Minutes

12.009 Roll Off Operations and Safety

Safety in loading container, cable type hoist, unloading container, dumping container, container spotting and compacting containers are all covered in this video.

Run Time: 15 Minutes

12.010 Side Loader Operations and Safety

Operations of the Side Loader dumping loads, special hazards and special emphasis on safe lifting are covered in this film.

Run Time: 11 Minutes

12.011 Static Electricity

Solid tips are offered on how to reduce static electricity sparks.

Run Time: 5 Minutes

12.012 Traffic Control Through Work Zones

This video teaches how to protect workers in work zones.

Run Time: 21 Minutes

12.013 Vehicle – Backing Accident Prevention and Child Safety

This video explains the common causes of backing accidents

Run Time: 10 Minutes

12.014 Waste Control Management: Reduce, Reuse, Repair

This video teaches hazards and costs of recycling.

Run Time: 12 Minutes

Violence In The Workplace

13.001 Violence in the Workplace

DVD ONLY

Today more than 1,000 Americans are murdered on the job.

Run Time: 5 Minutes

13.002 Violence in the Workplace: Part 1

Behaviors leading to violence are on the rise in society. Threats of violence and violence represents a serious psychological drain on the workforce. There are many forms that workplace violence can take. Knowing the clues of a situation that can escalate into violence and how to deactivate a potentially violent situation is covered in this video.

Run Time: 16 Minutes

13.003 Violence in the Workplace: Part 2

This video covers employee safety, phone location and security guards. Personal protection of employees is important.

Run Time: 8 Minutes

13.004 Workplace Violence

Studies have indicated that violence in the workplace is the third leading cause of death. Learn which jobs are at higher risk.

Run Time: 10 Minutes

13.005 Violence in the Workplace

A very real, day to day trend of workplace threats, aggression and assaults has grown to epidemic proportion.

Run Time: 23 Minutes

13.006 I Could Have Saved a Life That Day

A workers anger/frustrations should be dealt with properly or it could cause serious problems/regrets in the workplace.

Run Time: 15 Minutes

13.007 Managing the Anger to Prevent the Violence

DVD ONLY

Being able to identify and understand how and why people turn violent may help you and your organization avoid such incidents from occurring in your workplace. This program looks at the causes of workplace violence and explores some of the common myths and mysteries associated with workplace violence. Also discussed are some methods of prevention that may help you and your fellow employees to stay safe, stress free and productive.

Run Time: 10 Minutes

Water / Water Waste Department

14.001 Construction Trenching and Shoring

This video covers basic guidelines on trenching and shoring safety and evaluating an excavation site. Emergency response is also reviewed.

Run Time: 10 Minutes

14.002 Confined Space Ventilation

Learn when and how to ventilate confined spaces effectively and safety precaution.

Run Time: 18 Minutes

14.003 Confined Space Rescue

Getting yourself out of confined spaces. Learn about the retrieval system.

Run Time: 31 Minutes

14.004 Confined Space Hotwork

Through a re-enactment of a fatal rail car accident this video explains the hazards of working in confined spaces, particularly when performing hotwork.

Run Time: 20 Minutes

14.005 Confined Space Entry

Entering confined spaces such as manholes, tanks and pits can be done safely.

Run Time: 18 Minutes

14.006 Chlorine

Chlorine is highly irritating to the skin and respiratory organs. Learn how to handle it safely.

Run Time: 5 Minutes

14.007 Once Too Many

When entering a confined space, a few basic safety procedures will ensure a healthy exit. The rules for entering a confined space are outlined.

Run Time: 5 Minutes

14.008 Respiratory Protection: A Breath of Fresh Air

This video teaches employees how to protect themselves while working in hazardous atmospheres.

Run Time: 18 Minutes

Water / Water Waste Department (continued)

14.009 Trench Emergency

This video was developed to warn employees about the dangers of trench excavations. Through a re-enactment of a trench accident, the dos and don'ts of trench rescue are illustrated.

Run Time: 16 Minutes

14.010 Trenching Safety: Part 1

In this video, basic guidelines are discussed to ensure a safe trenching job.

Run Time: 5 Minutes

14.011 Trenching Safety: Part 2

In this video, basic guidelines are discussed to ensure a safe trenching job.

Run Time: 5 Minutes

14.012 Trench and Shoring

This video covers hydraulic shoring installation.

Run Time: 13 Minutes

14.013 Trenching and Shoring Safety

This video was developed to teach employees how to prevent cave-ins and understand trench hazards.

Run Time: 18 Minutes

14.014 Whose Job Is It Anyway?

Confined space entries can lead to fatal mistakes.

Run Time: 5 Minutes

14.015 Wastewater Backup and Overflow: Response

Run Time: 23 Minutes

14.016 Wastewater Backup and Overflow: Loss Control

Run Time: 23 Minutes

Water / Water Waste Department (continued)

14.017 Confined Space Entry

DVD ONLY

Many workplaces contain spaces that are considered “confined” because their configurations hinder the activities of employees who must enter, work in, and exit them. A confined space has limited or restricted means for entry or exit, and it is not designed for continuous employee occupancy. Confined spaces include, but are not limited to underground vaults, tanks, storage bins, manholes, pits, silos, process vessels and pipelines. This video will help assist employers in training their workers about confined space entry safety.

Run Time: 20 Minutes

14.018 Excavation and Trenching

DVD ONLY

There are many hazards associated with excavation and trench work. Some topics covered in this video are: soil analysis, competent person, protective systems, access and egress, excavated materials (spoil), confined spaces, mobile equipment and surface.

Run Time: 15 Minutes

Work Zone Safety

15.001 **Barricade Safety Part 1: The Forbidden Zone**

Serious injuries can be avoided when barricades are properly observed. Tips are offered on barricade safety off and on the job.

Run Time: 5 Minutes

15.002 **Barricade Safety Part 2: Deadly Detour**

Driving around road construction and barricades is not only tricky, it can be dangerous to both the driver and road crews.

Run Time: 5 Minutes

15.003 **Flagging: You're the Director**

This video was developed to teach employees about proper flagging procedures for use within a highway work zone.

Run Time: 17 Minutes

15.005 **Highway Work Zone Safety**

DVD ONLY

Being safety conscious, traffic control devices, slowing down traffic, detour, closures, and communication are all covered in this video.

Run Time: 15 Minutes

15.006 **Highway Work Zone Safety 2**

DVD ONLY

This video addresses the proper steps to setup a work zone that is safe for workers and traffic. Also includes traffic control devices and trained flaggers.

Run Time: 12 Minutes

Public Official Liability Training

16.001 **Conducting Public Meetings**

Run Time: 12 Minutes

16.002 **Zoning and Land-Use Issues**

Run Time: 12 Minutes

16.003 **Employment Practices**

Run Time: 12 Minutes

16.004 **Proactive Management and Sexual Harassment:
Recognition, Intervention Prevention**

Run Time: 21 Minutes

16.005 **Workplace Harassment, Discrimination & Respect**

DVD ONLY

Run Time: 17 Minutes

16.006 **In the Scope of Your Authority: Preventing Public Officials' Liability** ***DVD ONLY***

This video discusses how elected and appointed officials can avoid mistakes that can lead to liability claims and identifies best practices that will allow officials to be successful. Key topics include quasi-judicial hearings, legislative matters, delegating administrative and personnel issues, electronic communications, and maximizing liability protections.

Run Time: 17 Minutes

16.007 **Special Events....Special Liabilities**

DVD ONLY

Concerts in the park, festivals lasting several days, even frog jumping contests are special events with very unique liabilities for public entities. This video emphasizes the importance of pre-event planning. It covers topics such as site safety surveys, crowd control, establishing emergency plans, traffic control, common liability exposures and special insurance requirements.

Run Time: 17 Minutes

16.008 **Recreational Activity Liability**

DVD ONLY

This video is designed to help supervisors and managers of recreational facilities identify physical and personnel exposures, and controls to help prevent accidents. Topics include safety for swimming pools, gymnastics, skateboard facilities and ice rinks.

Run Time: 16 Minutes

Public Official Liability Training (continued)

16.009 Managing the Risks of Volunteers

DVD ONLY

They coach, assist in community clean-ups and even help fight fires; but volunteers are often exposed to risks of injury, and your public entity to resulting risks of liability. This video will help you identify, plan and address the various risks of your volunteer program, while providing useful tips such as appointing a volunteer coordinator, establishing a volunteer management program, evaluation potential safety hazards and reviewing insurance coverage.

Run Time: 16 Minutes

16.010 Preventing Sexual Harassment for Employees

DVD ONLY

Sexual harassment is a workplace issue that if properly handled can be of little consequence to you and your company. You play a vital role in preventing sexual harassment from occurring at your company. Not handled properly, sexual harassment can take a toll on the victim, their family, friends, coworkers and your company. This video covers these areas: defining sexual harassment, potential victims and harassers, inappropriate workplace behaviors, preventing sexual harassment at work and what to do if it occurs.

Run Time: 18 Minutes

16.011 Preventing Sexual harassment for Managers

DVD ONLY

Sexual harassment is a workplace issue that if properly handled can be of little consequence to you and your company. You play a vital role in preventing sexual harassment from occurring at your company. Not handled properly, sexual harassment can take a toll on the victim, their family, friends, coworkers and your company. This video covers these areas: managers and their role, what is sexual harassment, types of sexual harassment, potential victims and harassers, effects of sexual harassment, your company's sexual harassment policy and investigative procedures.

Run Time: 20 Minutes

Loss Control Seminars

17.001 Slip, Trip and Fall Hazards for Public Entities

DVD ONLY

Slips, trips and falls are a major cause of workers compensation and liability losses within public entities. This video presentation will address the recognition, evaluation and control of slip, trip and fall hazards in your workplace and community.

Run Time: 31 Minutes

17.002 Coping with Paperless Workers Compensation Reporting

DVD ONLY

This video contains line-by-line descriptions of the proper way to complete the first report of injury for workers' compensation claims. New electronic filing requirements are also discussed.

Run Time: 17 Minutes

17.003 Hiring, Firing and Retention

DVD ONLY

The most important asset of any organization is its employees. However, hiring and keeping good employees and, when necessary, getting rid of bad ones can be a mine field. This presentation is an overview of the key steps in the process of hiring and retaining good employees, as well as the necessary steps to take when there is no other alternative but to let an employee go.

Run Time: 48 Minutes

17.004 Developing a Safety Culture

DVD ONLY

Entities that successfully instill an effective safety culture do so by adopting safety as a core value and not just something that is mentioned at monthly meetings. The management and supervisors use safety as a method of showing support and belief in their employees. This demonstrates to employees that management does sincerely care about their health and safety. Proactive managers understand they must walk the walk and not turn their heads when hazards are presented, despite how insignificant they may seem.

Run Time: 64 Minutes

Transit

18.001 Turn, Turn, Turn

DVD ONLY

This safety video is made by Transit Mutual Insurance Corporation of Wisconsin. Transit Mutual has had a significant number of turning accidents that have resulted in large settlements. As a result, TMI Corporate Counsel wrote a script and had a short training program produced to remind drivers of the dangers when making right and left turns. Because each type of turn presents its own unique dangers and blind spots, right and left turns are highlighted in separate segments detailing the do's and do not's of driving a municipal transit bus.

Run Time: 10 Minutes

18.002 Slip Sliding Away

DVD ONLY

This safety video is made by Transit Mutual Insurance Corporation of Wisconsin. Driving a bus in wintery weather is challenging, hazardous and down-right dangerous, presenting different demands than any other time of the year. This program is intended to help drivers avoid accidents, reminding drivers of situations where extra caution is needed due to the weather.

Run Time: 7 Minutes

18.003 Seasons in the Sun: Driving Challenges in the Spring and Fall

DVD ONLY

This safety video is made by Transit Mutual Insurance Corporation of Wisconsin. This video highlights a number of scenarios that remind municipal bus drivers to anticipate potential dangers. Runners, roller bladers, bicyclists, kids playing ball games, etc. all create potential dangers when driving a municipal transit bus. Also discussed in this video is road construction and energetic student passengers.

Run Time: 9 Minutes

18.004 Bicycle Built for Two: Driving Challenges for Buses and Bikes

DVD ONLY

This safety video is made by Transit Mutual Insurance Corporation of Wisconsin. Buses and bicycles should be aware of each other and how each uses the streets. This will help bus drivers and bicyclists avoid accidents. This DVD will educate both municipal bus drivers and bicyclists on how buses maneuver, blind spots, and precautions to take to keep the roadways a safe place to travel.

Run Time: 9 Minutes
